Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This Office Action is responsive to the amendment filed 09 January 2004 in which claims 3, 5, 7, and 9 were canceled.

Drawings

1. The drawings were received on 12 January 2004. These drawings are approved.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 2, 4, 6, and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Thompson (2,045,031).

Thompson discloses a vehicle independent suspension system having means for supporting a pair of wheels on a vehicle body, each wheel support including: an upper control arm (19), a lower control arm (10) associated with the upper control arm and located beneath the upper control arm, said control arms co-operating to mount a wheel carrier (17) on a vehicle body, the inner end of the upper control arm being connected by a first articulating joint to the vehicle body (on 20, see Figure 2), said outer end of the upper arm connected by a second articulating joint (18) to the wheel carrier, the inner end of the lower arm connected by a third joint (13) to the vehicle body, the outer end of the lower arm connected by a fourth joint (16) to

the wheel carrier, a compression spring (25), the upper end of the spring being connected by a fifth articulating joint (31) to the vehicle body, wherein a bump stop (see Figure 2, below the location of the numeral "25a") is mounted on the body below the fifth joint to engage the upper control arm when the spring is compressed, the lower end of the compression spring being connected by a sixth joint (37) to the lower arm, the sixth joint having a center of rotation below one of a first line joining centers of rotation of the first and second articulating joints and a second line joining centers of rotation of the third and fourth joints (see Figure 2). The lower end of the spring is connected to the lower control arm. The compression spring is in an upright orientation (see Figure 2). The spring is a coil spring. An additional compression spring (40) is mounted between the body and the lower arm.

Response to Arguments

4. Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Booth shows a suspension of interest.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit: 3616

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
